Letter from [REDACTED]

25X1A

Attached is the copy of the letter from

[REDACTED] which I referred to yesterday.
This was held pending my return to the office
and I attempted to extract the pertinent items
to permit easier handling of the letter; how-
ever, in the interest of time I will just give
you the whole package. Incidentally, I have
asked Gene for the sake of us all to separate
the action items so that they will not be
buried in the monthly correspondence. As
you can see, this applies to the laser infor-
mation and IPRD particularly.
